

Plan for a pilgrimage to Glastonbury and Tintagel – Version 2

Course Redirect

Due the Covid lockdowns, we cannot travel to Glastonbury or Tintagel as previous planned. So, we need a major “course redirect” and will carry out the activations remotely.

This will be done from the Museum Gardens on specific dates as detailed below.

We will use a holographic connection method to carry out the activations based on Arcturian technology¹

Planetary Healers Yorkshire – Mission booklet

The mission booklet has been revised to allow for the activations to be carried out remotely. The sequence will be

- On entering sacred space
- Preparation
- Main ceremony with the Activation of the Grids remotely
- Excalibur code
- Optional invocations and revocations
- Prayers and blessings
- Sealing and dedication

Please see the attached booklet for the full ceremony.

Locations

The locations for the remote activations are:

Ain Soph Galactic Sun Star Portals

- Glastonbury Tor
- Skellig Michael
- Mt Kailash

Arthurian energy of the Once and Future King

- Merlin’s Cave, Tintagel
- St Nectan’s glen

¹ From the book Expand Your Consciousness through David Miller – Chapter 7 The Nature of Universal Consciousness (Helio-ah and the Arcturians) – Holographic Connection.

Cosmic dragon lines and the Rainbow serpent

- Uluru
- Kata Tjuta

During the ceremony we will visualise these places to connect them up and clear any obstacles in the way of this very high frequency light to stream down the grid lines to York, prior to the activation of the Planetary City of Light on the 17th January.

A visualisation aid has been created to help with the visualisations. This can be seen at

Please check it out before the activations as it will help everyone to tune into the sacred sites and the grid lines connecting them.
